Their Tiger Cotton line offers superior quality and an incredible story about the power of organic farming to change lives and ecosystems. Certifications: GOTS, EU Eco-Label, Fairtrade, SA8000, OEKO-TEX.

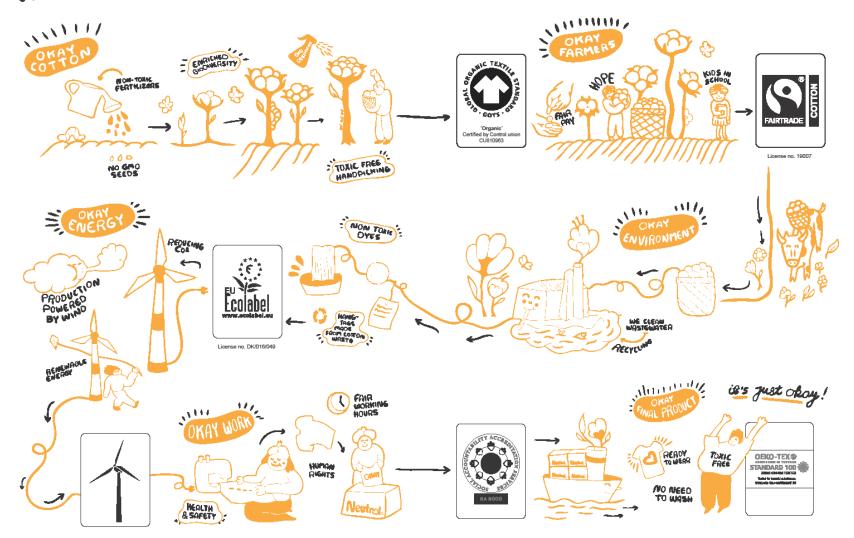

The Tiger Cotton<sup>®</sup> collection has been in development for 5 years. Now it's finally here! To protect the biodiversity, people and the planet and increase organic cotton farming Tiger Cotton<sup>®</sup> works to convert conventional cotton farming to organic. There are five styles of sustainable label free basic wear made by 100% organic in conversion cotton and certified with EU Ecolabel, SA8000, GOTS In Conversion and Oeko-Tex. WHY TIGERS? The first Tiger Cotton<sup>®</sup> farmers lived and worked alongside the great Bengal Tiger in Madhya Pradesh, India. #### QR Code

We are thrilled to introduce our ground-breaking traceability and impact tech via the Mantis World Impact Calculator. We are rolling out a tear-out label featuring a QR code that any customer can scan, taking them to a "white label" microsite where they can see how much water, energy,  $CO_2$  and pesticides they have saved by choosing to buy our organic garment.

By clicking through they can also see full traceability from the raw material onwards with images of the actual facility for every step of production. Customers are also able to view some of the certifications we hold and a little bit of background of how we calculated the impact savings.
